## **DETAILED ACTION**

### ***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species:

Figure 5, handle including label that is an opaque sheet with indicia on a surface

Figure 6, handle including label that is a transparent sheet having decorative indicia

Figures 7-9, handle including an insert mounted within a handle

Figure 10, handle having an insert that is carried with the cap and disposed within the handle

Figure 11, handle having an insert that is a body loosely disposed within the handle

The species are independent or distinct because Figures 5-11 each clearly show different variations of a handle for a cleaning apparatus, Figures 5-9 demonstrate different types of decorative labels for mounting to a handle, Figures 7-11 demonstrate different types of handles wherein an insert or body is mounted within the hollow handle, and Figures 10-11 are varying types of handles where a body itself, not an insert having indicia, is mounted within the handle. As previously stated, Figure 5 includes a label mounted on the handle that is an opaque sheet having indicia, Figure 6 includes a label mounted on the handle that is a transparent sheet having indicia, Figures 7-9 include an insert mounted in the handle, the insert carrying decorative indicia, Figure 10 includes an insert that is a body carried with the cap of the hollow

Art Unit: 1744

handle and is disposed within the handle, and lastly Figure 11 is a handle including an insert that is a three dimensional decorative body disposed within the handle.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-9 and 20 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not

Art Unit: 1744

distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura C. Guidotti whose telephone number is (571) 272-1272. The examiner can normally be reached on Monday-Thursday, 7:30am - 5pm, alternating Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gladys Corcoran can be reached on (571) 272-1214. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
